Helping the people who help our world

People who care – and work with compassion – are needed in the most uncommon places on earth. So they can prevent illness, educate and train, build or rebuild, and give people hope.

At Raptim Humanitarian Travel we are driven by our passion and beliefs to help make a difference, not only by our profit. In 1949 we pioneered the world of humanitarian travel.

Today we have offices around the world and continue our commitment to serving the travel needs of NGOs, humanitarian, faith-based and volunteer organizations.

Travel where you are needed most

As experts in complex itineraries, urgent response and respectful service, Raptim Humanitarian Travel is here to help, 24/7. So your people can travel where they are needed most. And put a smile on faces around the world!

Our staff research fares thoroughly, giving you the best value as well as fares. And because airlines are used to working with us and acknowledge our role in the humanitarian community, they prefer and trust Raptim when distributing special fares.

We appreciate that you have demands to meet and rules to follow. That's why Raptim also offers consolidated travel, insights into your costs and advice about ways to save money.

Raptim's global services

When partnering with Raptim, you have access to a designated team of travel consultants who specialize in complex individual itineraries, and group travel. We help with reservations and tickets for scheduled air transportation, worldwide, with quick and reliable itinerary information.
